AMENDMENT UNDER 37 C.F.R. § 1.111 Attorney Docket No.: Q85332

Application No.: 10/518,627

removing water from the catalyst.

AMENDMENTS TO THE SPECIFICATION

Please delete the present Abstract of the Disclosure.

Please add the following new Abstract of the Disclosure:

A method for regenerating an NO_x removal catalyst, the method being capable of readily restoring the catalytic activity of a deteriorated NO_x removal catalyst; being performed by simple operations; and attaining high operational efficiency. The method for regenerating an NO_x removal catalyst 14 employed in a flue gas NO_x removal apparatus includes immersing the NO_x removal catalyst at ambient temperature in regeneration water 31 containing substantially no chlorine and no cleaning component; removing the catalyst from the regeneration water; and
